DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II, claims 18 and 16-38 is acknowledged. The traversal is on the ground(s) that the inventions can be examined together without serious burden. This is not found persuasive because the examiner's showing of burden was made in the previous restriction requirement, the specifics to which Applicant does not appear to respond. It is also noted that the specific process steps of the instant claims 1 and 18 are completely different and are not so similar that "a search of any one group encompasses a search of the subject matter of any other group" as Applicant asserts.

The requirement is still deemed proper and is therefore made FINAL.

Allowable Subject Matter

Claims 18 and 26-38 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: It would not have been obvious to one of ordinary skill in the art at the time the invention was made to control one of the claimed combustion factors to remove NOx before removing fly ash and mercury by means of an ash burnout unit in the process of the instant claim 18.

Conclusion

This application is in condition for allowance except for the following formal matters:

A telephone call to Applicant's representative did not result in the cancellation of the nonelected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
